

# OPERATION: EVIDENCE COLLECTOR

## DEAR RECRUIT:

The key to becoming a successful Youth Haven Secret Agent is the ability to find evidence. Evidence is anything that helps us understand truth through the use of our five senses (sight, hearing, taste, smell, and touch). We collect and protect evidence to study it and to help us show what we have learned.

## MISSION:

Find evidence of God's creative power by observing nature, our outdoor world which He created. Your mission is to follow the instructions below and present your findings to the Chief at the Youth Haven Spy Academy...

## SUPPLIES:

- Evidence Collection sheet
- Tape
- A plastic bag or container to place your evidence in while collecting it
- A pencil and crayons, colored pencils, or markers

## STEP 1: READ ROMANS 1:20

"For ever since the world was created, people have seen the earth and sky. Through everything God made, they can clearly see his invisible qualities – his eternal power and divine nature So they have no excuse for not knowing God."

## STEP 2: OBSERVE NATURE

Get permission to go outside, and use your senses to observe nature.

- What trees do you see? Is there any grass?
- What kind of rocks are around?
- Do you see any bugs crawling around?
- Can you hear birds, dogs, or other animals?
- Can you hear the wind blowing?
- Look at the sky. Do you see clouds moving?
- What does the weather feel like? Is it hot or cold outside?
- What do you see off in the distance? Do you see any mountains, large hills, or maybe even a rainstorm?

## STEP 3: COLLECT EVIDENCE

As you answer these questions, begin to collect evidence like the leaf of a tree you see, a blade of grass, or a rock you found.

Tape or glue the things you collect to your Evidence Collection sheet. If you cannot physically collect something (like animals you hear or things in the sky), draw a picture or write a short description of it. Label each piece of evidence, being as specific as you can.

## STEP 4: MISSION COMPLETION

Great job collecting evidence of God's creative power! We hope you had fun and found some really cool things!
